

ORDINARY DIPLOMA IN SOCIAL PROTECTION (ODSP II)

PROJECT QUESTIONS

2017-2018

CHF was established in 2001 following the enactment of the Act no 1 of 2001. The fund started its operation in 1996 as a pilot project in Igunga district and later on, following the introduction of the Act; the Government decided to extend the services of the fund to the other districts. From the time of its inception to date, the performance of the fund is still facing challenges, a move which compelled the Government to keep the fund under the management of the National Health Insurance Fund (NHIF). Officially, CHF was kept under the management of NHIF in June 2009 with a view that the fund will improve its performance and its outreach to the majority. In this regard, you are required to conduct a simple desk search and write a report indicating whether the performance of the fund has improved.

In the process to work on the problem, the following objectives should guide your study

- Explore the role of Social Health Insurance to the population
- Identify the factors that hinder the extension of services of the fund
- Identify the measures which are already implemented in order to improve the performance of the fund
